SEWP Overview

NASA SEWP VI – The NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced "soup," provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors. Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. Originally, the contract vehicle provided only technology products for NASA and all other agencies. SEWP has continually evolved over the past 30 years, expanding its scope to meet the requests of its customers. The SEWP vehicle represents acquisition innovation within the Federal Government. The program is self-funded through usage fees (0.34%) and provides all Federal agencies with acquisition support – more than 50,000 orders a year.

Fair Opportunity

FAR 16.505(b)(1) provides that each contractor shall be given fair opportunity to be considered for each order exceeding $10,000 and issued under multiple award contracts. The FAR states that the method to obtain fair opportunity is at the discretion of the Contracting Officer (CO) and that the CO must document the rationale for placement and price of each order. Using the SEWP online Quote Request Tool is the recommended method to assist in this activity and to augment the required decision documentation. The SEWP Quote Request Tool (QRT) will automatically include the Contract Holders within a selected Group or based on a suggested source.

About Makpar

Founded in 2008, Makpar is a professional and technical solutions provider for the federal government. We combine deep functional knowledge of agency missions with technical expertise in cloud-optimized engineering, decision intelligence, cyber resilience, and application development – delivered through a consulting approach we call The Makpar Way.

For more than 15 years, Makpar has helped agencies including the Department of Labor, the Department of the Interior, the IRS, USCIS, and USDA modernize the systems their missions depend on, with particular strength in identity, credential, and access management (ICAM) and Zero Trust. Our delivery is backed by CMMI Services and Development Level 3 appraisals and ISO 9001, ISO/IEC 27001, and ISO/IEC 20000 certifications.

Makpar is an SBA-certified 8(a), WOSB, and EDWOSB company. Visit us at www.makpar.com.

What's In Scope for SEWP VI?

SEWP is designed to provide a broad suite of Information Technology, Communication and Audio Visual (ITC/AV) solutions and services. Technology is ever-evolving and for that reason SEWP's processes enable our Contract Holders to add new commercial technology and IT services to their contract daily, as requested by our customers. The focus of SEWP is on the full suite of technology offerings that simplify Governmental access and Industry offerings across the entire ITC/AV solutions and services landscape. SEWP is composed of three (3) scope categories detailed below. If you would like SEWP to determine if your requirement is within scope of the SEWP VI contract, please send an overview and/or bill of materials (BOM) to help@sewp.nasa.gov and we will quickly review and provide feedback.

The SEWP Contracts were awarded by scope category. The three categories are:

CATEGORY A

ITC/AV Solutions

Products & solutions

CATEGORY B

Enterprise-Wide ITC/AV Service Solutions

✓ Makpar contract holder

CATEGORY C

Mission-Based ITC/AV Service Solutions

✓ Makpar contract holder

Ordering Process

The internal ordering process of each Agency varies. The process and accompanying forms for Purchase Requests (PR) and Delivery Orders (DO) that are issued against a SEWP contract is defined by the issuing Agency, not the NASA SEWP Program Management Office (PMO). The typical process is for an end-user to determine a requirement and generate a Purchase Request (PR).

The PR along with any necessary funding information is sent to that Agency's procurement office which results in the issuance of a DO. Any valid Federal Agency DO form, and the associated Delivery Order number may be used. The NASA SEWP Program Management Office (PMO) does not issue DOs – these must be issued through the issuing Agency's procurement office. The SEWP Program Management Office (PMO) reviews, processes and tracks issued DOs and forwards them to the Contract Holder(s).

Some Agencies have special requirements for issuing IT Delivery Orders. It is the Issuing Agency's Contracting Officers' (COs/KOs) responsibility to be aware of any Agency-specific policies regarding issuing orders via an existing contract vehicle and Government-Wide Acquisition Contracts. There are no requirements under the SEWP Contracts for issuing Agencies to use other intermediary procurement offices, except as directed through their own internal policies.

If modifications are made to any order, these modifications must also route through the SEWP Program Management Office (PMO).

How to Request a Quote from Makpar

Agencies can request a quote for services under Makpar's SEWP VI contracts in either of two ways:

1. **SEWP Quote Request Tool (recommended).** Submit your requirement through the QRT at www.sewp.nasa.gov and select Makpar (Category B) or MakNuAx JV2 (Category C) as a suggested source. The QRT documents fair opportunity automatically.
2. **Contact Makpar directly.** Email the Program Manager or info@maknuax.com with your requirement. Our team will confirm receipt and coordinate next steps with you.

To help us respond quickly and accurately, please include:

- Statement of Work (SOW), Performance Work Statement (PWS), or a summary of the requirement
- Contract category (B or C) and any preferred contract type (FFP, T&M, or Labor Hour)
- Anticipated period of performance and place of performance
- Security, clearance, or compliance requirements

- Quote due date and point of contact at your agency

Post-Award Support, Warranty & Technical Support

Every order awarded to Makpar is assigned a Program Manager who serves as your single point of contact from kickoff through closeout. Services are delivered in accordance with the terms of each order's SOW/PWS, and your Program Manager coordinates onboarding, status reporting, and any post-delivery questions.

Where an order includes third-party software or hardware incidental to a service solution, the original equipment manufacturer's (OEM) standard warranty and support terms apply. Extended warranty, software maintenance, and technical support can be quoted as separate line items on request. For installation, warranty, technical support, or software support questions, contact the Program Manager listed in this guide.

Troubleshooting an Order

If an issue arises with an order – such as a delivery, invoicing, or performance concern – please use the escalation path below. Order modifications must also route through the SEWP PMO.

Level	Contact	How to Reach
1	**Program Manager – Dawn Cook**	dcook@makpar.com | (703) 577-8021
2	**Deputy Program Manager – Kaamil Khan**	kaamil@makpar.com | (703) 309-1297
3	**Makpar Corporate**	info@makpar.com | 571-799-0070
SEWP PMO	**NASA SEWP Helpline**	help@sewp.nasa.gov | (301) 286-1478
